Summary

AI Engineer and LLM Specialist with proven experience designing scalable, multilingual NLP and vision systems using LangChain, HuggingFace, and Groq API. Strong foundation in cloud infrastructure, containerized microservices, and applied deep learning. Adept at building intelligent agents, document-based RAG pipelines, and production-ready tools in fast-paced research and startup environments. Winner of national AI competitions and contributor to scientific research in medical imaging.

Education

Bachelor's in Artificial Intelligence

Alamein International University (AIU), Egypt

Graduated: June 2025 | CGPA: 3.371/4.0

Technical Skills

Programming: Python, Java, C, R

Machine Learning: TensorFlow, PyTorch, HuggingFace Transformers, Scikit-learn

NLP & LLMs: LangChain, Groq, LLaMA, Mixtral, RAG, Attention Models, Prompt Engineering

Cloud & DevOps: AWS, Docker, Kubernetes, Serverless Architecture, Virtual Machines, SOA

Web & Tools: React.js, MySQL, Git, n8n, Google Calendar API, Telegram API

Focus Areas: LLM Agents, Arabic NLP, Vision-Language Models, Recommender Systems

Languages: Arabic (Native), English (Fluent - Written & Spoken)

Projects

AI-Based Eye Disease Prediction Using OCT Images

Graduation Project, AIU | Sep 2024 – Jun 2025

- Built a deep learning model to detect retinal diseases using OCT images.
- Created a web application for real-time predictions using clinical data from iCare Clinic.
- Currently working on publishing findings in a scientific journal.

T3allab – AI-Powered Gamified Learning Tool

iGamify | Apr 2025 – May 2025

- Developed a document-to-quiz conversion tool powered by LLaMA-4, Groq API, and RAG.
- Supported bilingual content (Arabic/English) with instant scoring and gamified frontend in React.

Multilingual MCQ Generator

YouLearnt | Jan 2025 – Apr 2025

- Built a smart generator that creates MCQs in over 15 languages using Mixtral, LLaMA, and Groq API.
- Added language detection and response validation for accuracy.

Smart Meeting Assistant Agent

AI Programming Course Project | Apr 2025

- Designed an AI agent that schedules meetings, summarizes discussions, and interacts via Telegram.
- Used n8n workflows, Google Calendar API, and HuggingFace LLMs to create a seamless experience.

Client-Server Chat App

ITI | Feb 2023 – May 2023

- Developed a JavaFX-based chat system with MySQL backend.
- Implemented socket programming, multi-threading, and robust error handling.

Experience

AI/NLP Trainee

City of Scientific Research and Technological Applications (SRTA-City), Alexandria

Jun 2024 – Jul 2024

- Trained in modern Arabic NLP pipelines and explored evaluation strategies for LLMs.

Marketing Trainee

Information Technology Institute (ITI), Remote

Aug 2023 – Oct 2023

- Designed and implemented a digital marketing plan across multiple platforms.

Software Trainee

Information Technology Institute (ITI), Alamein

Feb 2023 – May 2023

- Built a Java-based messaging app, working on both frontend and backend features.

Courses

LLM & AI Engineering:

- LangChain MasterClass – Build 15 LLM Apps (Apr 2025)
- Fundamentals of RAG & AI Agents (Feb 2025)
- Advanced Prompt Engineering (May 2025)

Natural Language Processing & Deep Learning:

- NLP with Attention Models (Apr 2025)
- NLP with TensorFlow (Apr 2024)
- Neural Networks and Deep Learning (Dec 2023)

Generative Adversarial Networks (GANs):

- Build, Apply & Improve GANs Series (Feb–Apr 2025)

Recommender Systems:

- Content-Based & Non-Personalized Recommendations (May 2025)

Cloud Computing & Infrastructure:

- AWS Academy Cloud Foundations (Oct 2024)
- Hands-on coursework in Docker, Kubernetes, Virtualization, SOA, Microservices, Serverless

Awards

First Place – SURL 2025 Student Competition

American University in Cairo (AUC)

- Won 1st place out of 220+ teams for developing an OCT-based diagnostic system.
- Project evaluated by experts from IBM, Microsoft, and the Ministry of Communications.

Extracurricular Activities

Rowing Athlete

Yacht Club of Egypt | Feb 2016 – Present

- Represented Egypt in international competitions (2019).
- Earned 20+ medals at national championships.

Competitive Swimmer

Olympic Club, Egypt | Jun 2009 – Oct 2018

- Competed at national level across multiple seasons.

Conferences & Field Visits

Valeo Egypt (Company Visit via AIU) – Explored embedded AI and software development practices.

Arab Security Conference (2023) – Attended sessions on cybersecurity and emerging digital threats.
